TAROT DE JACQUES VIEVILLE

Krisztina Kondor
78 Cards
Artisan Tarot
£47.00

This is a restoration of the Jacques Vieville tarot deck which was originally produced in Paris in 1650. The only known copy is preserved in the National Library of France. Due to the age and craftsmanship, many details are indistinct. Conditions of the time required cardmakers to labor quickly under a strict work environment, which led to this deck's unique character.

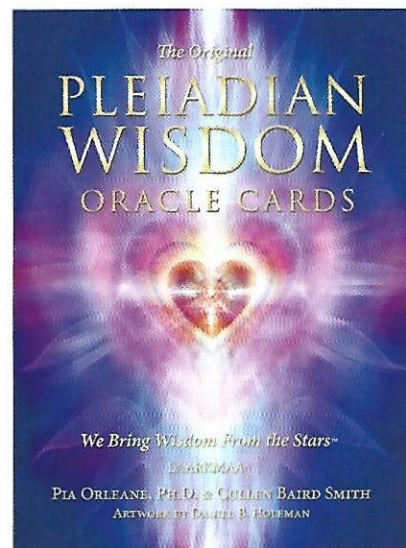

There are many uncertainties surrounding the production of these cards. Most of the images are mirrored compared to its contemporaries, the style of the artwork varies throughout the deck, and the placement of the numerals and text suggest that they were added separately to the original design.

This deck was digitally recreated by Krisztina Kondor with the assistance of William Rader. They studied the images and researched their history to clarify and reveal hidden areas. To create consistency, the same colour palette is used throughout the deck. The misaligned colouring was corrected and the details were also enhanced.

Advances in card manufacturing have allowed this historic deck to be refined for the modern world. You can purchase your copy at artisantarot.com

These oracle cards are infused and encoded with Pleiadian wisdom, stardust, light and love! The Pleiadian Evolutionary System in these cards brings light, shining new wisdom into the dark - a rare gift for the transformation of human consciousness. The purpose of this oracle deck is for guidance and inspiration. The imagery motifs of hearts, spirals, and waves represent the energy and essence of the Pleiadians. The quotes come directly from Laakmaa, a group of loving, gentle, and wise Pleiadians whose greatest gift is to help humanity awake and evolve.

Barbara Hand Clow, author of *The Pleiadian Agenda* and *Alchemy of Nine Dimensions* says 'This is the Pleiadian oracle I have awaited all my life! It is crystal clear, direct, and deeply meaningful. It comes directly from the Pleiadian heart.'
